

Global Group Meeting 2024

Bremen, 11 November 2024 – The CHS Container Group, a leading provider of container logistics solutions, successfully hosted its annual Global Group Meeting today at its headquarters in Bremen. This important event brought together employees and leaders from around the world to shape the company’s strategic direction, set collective goals, and strengthen collaboration across borders. The meeting marks a significant milestone in promoting international cooperation and driving innovation within the container solutions sector.

The event provided a platform for participants to discuss current industry challenges and plan future innovations. “We are proud to host the Global Group Meeting as an opportunity to foster cross-border collaboration and strengthen our international network,” said Christian Leopold, Managing Director. “This event underscores our vision to advance the container solutions industry through collaborative innovation,” said Frank Pöser, Managing Director.

A key highlight of this gathering is the company’s participation in Intermodal 2024 in Rotterdam, beginning on 12 November. There, a dedicated team of experts will represent the company, engaging with other leading industry players and exploring forward-thinking partnerships. The Intermodal event offers an exceptional opportunity to gain insights into global trends and developments in container logistics, as well as to identify new fields of innovation.

With the Global Group Meeting and participation in Intermodal 2024, the CHS Container Group demonstrates a clear commitment to a future driven by international teamwork and technological progress.
